

OPTOTRONIC OT DMX RGB DIM

Dimmers for LED modules

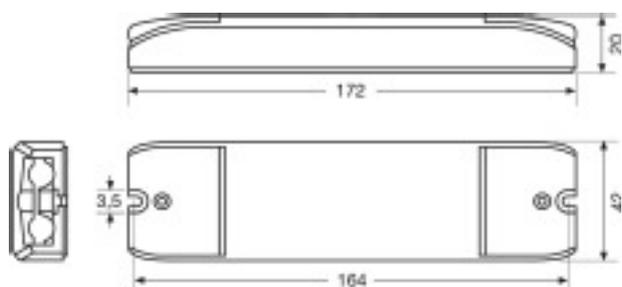

Product benefits

- Intelligent electronic constant-voltage 3-channel DMX dimmer
- Constant-current dimmer with strain relief for separate installation

Product features

- Three output channels, can be controlled individually via DMX
- Addressing via rotary switches
- Maximum operating output voltage: 2 A per channel
- Control via DMX interface by means of DMX control units
- Reversible protection mechanisms for short-circuits, overtemperature and -loads

Product line drawing with numbers

Technical data

Product description	Dimming interface	Type of installation	Type of protection	Nominal voltage	Number of control outputs	Output power
	DMX	Luminaire integration/Ceiling integration	IP20	10...24 V	3	144 W

Application advice

For more detailed application information and graphics please see product datasheet.
